La Grippe Again.

The re-appearance of the "grip" calls to mind the experience of Jac. G. Jones, publister of the Leader, Mexia, Texns. He was sick in bed for ten days with the grip during its prevalence a year or two ago. Later in the season he had a second. He says: "In the latter case I used Chamberlain's Cough Remedy and with considerable success, I think, only being in bed a little over two days. The second attack, I am satisfied, would have been equally as bad as the first but for the use of this remedy." It should be borne in mind that the grip is much the aume as a very severe cold and requires precisely the same treatment. When you wish to cure a cold quickly and effec-La Grippe Aguin.

Study Mining at Home. PPORTUNITY is, offered miners, mines officers, and other (who cannot afford to stop work and attend school) to obtain a,

knowledge, of arithme, tic, algebraic signs mine ventilation, mine surveying, mine mechanics, methods of working, geology prospecting, etc., in the Correspondence School of Mines, Scranton, Pa. It is the argest mining school in the world; hav-ing over 1,000 students on its rolls. The method of instruction is both practical and popular, and the school grows with great rapidity as those who are taking the different courses inform their friends and acquaintances how greatly they have been benefitted and how well they are satisfied. Students study at bome and there is no time lost from work. The tuition charges are reasonable and where necessary special terms of payment are made. Graduates are assisted to positions by the Employment Bureau of the School. For miners who wish to get away from the pick and drill and for mine officers who want to be thoroughly quali-Bed to overcome all the adverse conditions with which they have to contend, and to understand the machinery they have in use, etc, it is the chance of a life-time. To enter, students only need to know how to read and write. Graduates are assisted in obtaining positions by the Employment Bureau of the School. Send
